Dear Dorothy:

I read with nostalgia what you call your concluding articles "On the Record." I hate to think this is true, but want you to know that I am among those who have always admired your courage even when I disagreed with your views, which wasn't so often.

At least it is encouraging to know that you will keep on writing in one form or another with your rich background of knowledge, philosophy, and good sense.

I hope I will have a chance to see you before too long.

All best wishes.

Sincerely,

Signed
